

SANP SEPTEMBER 2014 NEWSLETTER

FEBRUARY MONTHLY MEETING

Date: Tuesday, September 30, 2014

Time: Social time 6:30pm/Meeting 7:00pm

Location: Goins Auditorium, Pellissippi State Technical Community College

Our presenter this month is SANP member Paul Hassell. Paul has embarked on a fascinating collaborative project interviewing dozens of the most talented outdoor photographers in the industry. His conversations center around why these pros do what they do. Picture this presentation as 25 of the greatest names (Dewitt Jones, Rob Sheppard, and Joe and Mary Ann McDonald to name a few) packing the auditorium to inspire you and fan the flame of your creativity in this wonderful craft of nature photography. For a small teaser, see [THIS VIDEO](#) on NANPAs blog.

Photography awakens us to the experience of being ALIVE.

BIO

Paul Hassell isn't strictly a photographer. Paul is in the light business. An entrepreneur since the age of fifteen, a lover of solitude, and a loyal friend, Paul defies convention at every turn. You'll walk away from talking photography with him, and you'll have the sense that Paul is doing what he was created to do. This at-home-ness in himself and his craft becomes a kind of permission for others to find their vocations and live them.

Paul found what makes him tick and organized his life around that calling. He designed his own major at The University of Tennessee: Freelance Photography and Writing for the Natural Environment. That's a mouthful. He's a member of [NANPA](#), SANP, and the [NSA](#), but the credentials matter less to him than sharing the profound experience. He points the way to a bigger truth and deeper reality.

Paul is the proud owner of [Light Finds, Inc.](#) His photography has been published in National Parks Magazine, Time/Life, Natures Best, and National Geographic books. Learn more at <http://www.LightFinds.Us>

FALL FOLIAGE INFORMATION

If you are looking for current information about fall colors try The Foliage Network website, www.foliagenetwork.com. This is a good website for fairly reliable information that is updated each Monday and Thursday during the fall color season. They have three regional reports: Northeast, Midwest, and Southeast. They also have previous years reports archived for comparison. I have used this website for several years and found the information very helpful.

FALL NATURE PHOTOGRAPHY WORKSHOP

Kendall Chiles will be teaching a Fall Nature Photography Workshop for the Smoky Mountain Field School on Saturday, October 25, 2014. This workshop will have classroom instruction of the photographic principles of exposure, composition, and lighting during the morning.
