

SANP MARCH 2015 NEWSLETTER

MARCH MONTHLY MEETING

Date: TUESDAY, MARCH 31, 2015

Time: Social time 6:30pm/Meeting 7:00pm

Location: Goins Auditorium, Pellissippi State Technical Community College

Our presenter this month is SANP member Brian Kaldenbach. Brian's program is "Photojourneys in the Northwest/Pacific Coast." The Pacific Coast from San Francisco to Seattle. We will take a photo-journey starting at the San Francisco Bay Bridge and work our way up to Seattle, stopping in Sonoma CA, Trinidad CA, and Redwoods NP. Then we'll move inland to Crater Lake NP and up the interior of Oregon to the Columbia River Gorge before returning to the coast at Astoria, OR and the shipwreck Peter Iredale. We'll wrap up by traveling up the coast of Washington along the Olympic Peninsula and Olympic NP. During our virtual trip we will enjoy sunsets on the beach, alpenglow on the rim of Crater Lake, and beautiful scenery, including desert, waterfalls, and vineyards and interesting landmarks like enormous driftwood. We will try to apply lessons we've learned from past SANP presenters such as Bill Fortney and Willard Clay.

BIO

Brian is an Electronics Engineer who has spent his career developing and deploying communications, radar, and optical tracking systems. He has enjoyed photography since childhood, though like many, his love for photography jumped by leaps and bounds with the invention of the digital camera. Brian's engineering training has spurred his desire to understand the technical aspects of photography, and his appreciation for the beauty around us has fueled a desire to develop his photography as an art. He forever expects to be a student of photography who is just as likely to photograph aircraft, architecture, cars, people and sports as he is scenics and wildlife. He has traveled extensively for business and rarely travels without a camera even when an opportunity to use it isn't expected. Brian also enjoys woodworking and likens photography to woodworking in that he doesn't create the beauty that results. He just reveals what God has put there in the first place.
